# Becoming OCP Java 11

OCP6, 7 or 8

Special upgrade  
exam (1Z0-817)

OCP11 (1Z0-  
819) exam

OCP11

50 multiple choice  
questions

90 minutes

Passing score: 68%

Is it worth it?

# Benefits of OCP11

Deeper  
understanding  
of Java

Looks great on  
your resume

Sometimes a  
requirement for  
job / project

Fun

## Exam topics

There are a lot of topics you need to know. Best to start with at least a year of experience in coding Java.

# Demo

Exam topics might change over time

Make sure to always check the latest

Here's how to find them:

- Google "OCP11 Java exam topics"
- Open the result of [education.oracle.com](http://education.oracle.com)

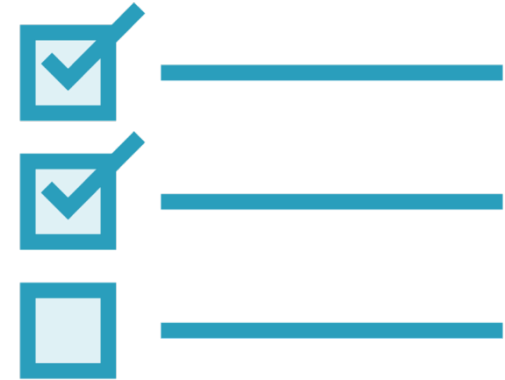

# Questions on the Exam

Multiple choice

Different formats

Right number of  
answers

Coding questions

Java theoretic  
questions

Command line  
commands questions

General theoretic  
questions

**Failing the first mock exam**

**Get used to question and thinking style**

**Make sure you are well prepared**

# How to Get Ready for the Exam

**Have some Java coding experience**

80-120 hours

Time per week

Schedule of topics per  
week

Make yourself  
comfortable

# How to Get Ready for the Exam

Have some Java coding experience

Watch all the Pluralsight courses on the exam topics

Take practice exams

Review weaknesses from the practice exam results

Repeat last two steps until you pass the practice exams: you're ready!

# Up Next: The Exam Experience
